

**You may think you do not qualify for tuition assistance.**

**Please take a closer look at  
our tuition assistance program.**

- Tuition assistance awards vary from modest annual awards to nearly full scholarships.
- Many factors are considered when calculating tuition assistance awards including employment status, income, assets, number of children, and special circumstances. As a result, families receiving tuition assistance have a wide range of income levels.
- Administrative personnel handle all tuition assistance requests confidentially.

To learn more about tuition assistance, please schedule a pre-application appointment with Shayna Friedman, Director of Admission, at 720-449-9522 or [sfriedman@denverjids.org](mailto:sfriedman@denverjids.org).

Please note that even full tuition does not match the actual cost of education each child. The tuition shortfall as well as our tuition assistance program is covered mainly through fundraising efforts and endowment earnings.
